## Client Spotlight

### GATEWAY PROGRAM

The Gateway Development Commission (GDC) is a government sponsored commission established to oversee and coordinate activities of the Gateway Program. The Gateway Program was formed to deliver critical rail infrastructure projects between Newark, New Jersey and Penn Station in New York City along the Northeast Corridor. This includes replacing and updating rail infrastructure assets that, in many cases, are over 100 years old.

The Gateway Development Commission currently has 11 senior level employees and is looking to quickly scale up to 40 employees as infrastructure projects begin. The GDC is currently seeking human resources services to support its growth.
